Vanguard University

(714) 635-9622  
anaheimymca.org

**Featured Speaker:**  
**DARELL HAMMOND**

Darell Hammond, CEO and founder of KaBOOM!, was instrumental in building 2,000 playgrounds to date throughout the United States. Millions of youth and families have become active through play on KaBOOM playgrounds.

KaBOOM!, founded in 1996 is a national nonprofit dedicated to creating play spaces across the country. Hammond brings together communities and corporate volunteers in in underprivileged communities throughout the United States.

Growing up with seven brothers and sisters at a residential group home outside of Chicago, he learned about volunteerism and leadership, and began to understand that great playgrounds make a big difference to kids' development.

The KaBOOM! mission is to help communities build great play spaces through the participation and leadership of communities, with the ultimate vision of having a playground within walking distance of every child in America. The Anaheim Family YMCA is very proud of their collaboration with KaBOOM!
